EDUCATION

Bachelor of Computer Science and Mathematics, *The University of Mississippi, Honor's Roll*

Graduated: May 2020, **Overall GPA**: 3.71, **Major GPA**: 3.8

Coursework: Database Management System, Mobile App Development, Web Programming, Advanced Algorithm, Software Design and Development, Computer Security, Cryptography, Computer Network, Digital Image Processing

Skills: HTML, CSS, Javascript, Bootstrap, SVG, ReactJS, VueJS, Typescript, REST API, Grafana, NodeRED, SQL/MySQL, Java, NodeJS, Spring MVC, Hibernate, Gradle, Git, Gitlab, Source Tree, Swagger, Git Extensions, Docker, CI/CD, Linux

PROFESSIONAL EXPERIENCE

Software Engineer | Foxconn Industrial Internet | 2020 | Present |

- Collaborated on designing and developing IOT device services which includes web services for facility monitoring systems, and smart industry 4.0 solutions.
- Designed and developed RESTful APIs for several dashboards using Spring Framework.
- Developed both custom **Content Management System(CMS)** and Client user interface for the IOT device marketplace.
- Designed and developed a surveillance system for the production facility at Foxconn(Front End).
- Maintain detailed functional and technical software specifications documents for scalable applications.
- Facilitated in code debugging and assisted in solving CI/CD pipeline failures.

VolHacks | Hackathon | The University of Tennessee | 2019 |

- Designed a cross-platform desktop application using electron framework.

Teaching Assistant | Center for Excellence in Teaching and Learning & Department of Mathematics | 2019 | 2020 |

- Scheduled weekly review sessions for various courses as a Supplemental Instruction Leader. | Basic Web Development Courses(HTML, CSS, JS) | Calculus |
- Tutored students in higher level Mathematics courses(Statistics, Differential Equations etc).

PROJECTS

Database Administrator | School of Engineering | 2019 |

- Designed a database using MySQL, PHP and GO for implementing CRUD interfaces in the website for subscription of news, addition and deletion of users.

Full Stack Developer | Department of Computer and Information Science

- Designed a web-based platform for the department to handle the student requests and applications using Agile Development, Project Management through SCRUM and version control via GIT. | **2018 |**
- Collaborated on multi authentication features for different users using HTML, PHP, MYSQL, JavaScript, CSS.
- Designed and developed an Attendance Tracking web application for the Department of Mathematics. | **2020 |**

Mobile App Developer | School of Engineering | 2018 |

- Developed a progressive hybrid mobile app which collects the news from major media outlets to a single portal using Ionic framework.

LEADERSHIP/ORGANIZATIONS

- Secretary, Intercultural Communication(InterCom)
- Automated Computation Machinery(ACM), Robotics Club Member

HONORS AND AWARDS

- Sally McDonnell Barksdale Honors College, International Excellence Award, Provost Scholar, Menon Scholar
